

PE-Foams for the Packaging Market

APPLICATIONS

Packaging applications often request materials that combine softness with a certain strength and robustness. Processability and functionality are as important as comfort for the end-user; the protection of the finished good is the highest priority.

TROCELLEN polyethylene foams are perfectly suitable for many different packaging solutions.

Packaging of flexoprinting-plates:

- improved anti-friction property
- accurate sheet cuts
- delivery in paperboards for optimal handling of sheets

Carry handles:

- individual colour matches
- comfortable haptics
- high-value optics

Optionally available with single or both side Corona treatment or long-term stable AST.

BENEFITS

- flexible and conformable:
 - ✓ very good fitting accuracy
 - ✓ optimal resilience behaviour
 - ✓ excellent elasticity
- smooth surface, cross-linked & closed-cell structure:
 - ✓ compatibility with different adhesive systems
 - ✓ easy to coat & die-cut
 - ✓ low thickness tolerances
